Call Wild Companion	You can summon a nature spirit that assumes an animal form to aid you. As a Magic action, you can expend a spell slot or a use of Wild Shape to cast the Find Familiar spell without Material components. When you cast the spell in this way, the familiar is Fey and disappears when you finish a Long Rest.
Don / Doff Shield	You can don or doff your shield as a Utilize Action.
Douse Space with Oil	You can take the Utilize action to pour an Oil flask on level ground to cover a 5-foot square area within 5 feet of yourself. A creature can take this damage only once per turn.

BONUS ACTIONS	
NAME	NOTES
Starry Form: Chalice	While in your starry form, you retain your game statistics, but your body becomes luminous, your joints glimmer like stars, and glowing lines connect them as on a star chart. This form sheds Bright Light in a 10-foot radius and Dim Light for an additional 10 feet. The form lasts for 10 minutes. It ends early if you dismiss it (no action required), have the Incapacitated condition, or use this feature again. Chalice. A constellation of a life-giving goblet appears on you. Whenever you cast a spell using a spell slot that restores Hit Points to a creature, you or another creature within 30 feet of you can regain Hit Points equal to 1d8 plus your Wisdom modifier.

It ends early if you dismiss it (no action required), have the Incapacitated condition, or use this feature again. Archer: A constellation of an archer appears on you. When you activate this form and as a Bonus Action on your subsequent turns while it lasts, you can make a ranged spell attack, hurling a luminous arrow that targets one creature within 60 feet of yourself. On a hit, the attack deals Radiant damage equal to 1d8 plus your Wisdom modifier.
Starry Form: Dragon	While in your starry form, you retain your game statistics, but your body becomes luminous, your joints glimmer like stars, and glowing lines connect them as on a star chart. CANTRIPS & SPELLS

LVL	PR.	NAME	RANGE	V S M / R C	NOTES
0		**Dancing Lights** Action	120 feet	(V) (S) (M) R (C)	You create up to four torch-size lights within range, making them appear as torches, lanterns, or glowing orbs that hover for the duration. Alternatively, you combine the four lights into one glowing Medium form that is vaguely humanlike. Whichever form you choose, each light sheds Dim Light in a 10-foot radius. As a Bonus Action, you can move the lights up to 60 feet to a space within range. A light must be within 20 feet of another light created by this spell, and a light vanishes if it exceeds the spell's range.
0		**Mage Hand** Action	30 feet	(V) (S) M R C	A spectral, floating hand appears at a point you choose within range. The hand lasts for the duration. The hand vanishes if it is ever more than 30 feet away from you or if you cast this spell again. When you cast the spell, you can use the hand to manipulate an object, open an unlocked door or container, stow or retrieve an item from an open container, or pour the contents out of a vial. As a Magic action on your later turns, you can control the hand thus again. As part of that action, you can move the hand up to 30 feet. The hand can't attack, activate magic items, or carry more than 10 pounds.
0		**Druidcraft** Action	30 feet	(V) (S) M R C	Whispering to the spirits of nature, you create one of the following effects within range. Weather Sensor. You create a Tiny, harmless sensory effect that predicts what the weather will be at your location for the next 24 hours. The effect might manifest as a golden orb for clear skies, a cloud for rain, falling snowflakes for snow, and so on. This effect persists for 1 round. Bloom. You instantly make a flower blossom, a seed pod open, or a leaf bud bloom. Sensory Effect. You create a harmless sensory effect, such as falling leaves, spectral dancing fairies, a gentle breeze, the sound of an animal, or the faint odor of skunk. The effect must fit in a 5-foot Cube. Fire Play. You light or snuff out a candle, a torch, or a campfire.
0		**Mending** 1 minute	Touch	(V) (S) (M) R C	This spell repairs a single break or tear in an object you touch, such as a broken chain link, two halves of a broken key, a torn cloak, or a leaking wineskin. As long as the break or tear is no larger than 1 foot in any dimension, you mend it, leaving no trace of the former damage. This spell can physically repair a magic item, but it can't restore magic to such an object.
0		**Starry Wisp** Action	60 feet	(V) (S) M R C	You launch a mote of light at one creature or object within range. Make a ranged spell attack against the target. On a hit, the target takes 1d8 Radiant damage, and until the end of your next turn, it emits Dim Light in a 10-foot radius and can't benefit from the Invisible condition.
0		**Guidance** Action	Touch	(V) (S) M R (C)	You touch a willing creature and choose a skill. Until the spell ends, the creature adds 1d4 to any ability check using the chosen skill.
1	◈	**Speak with Animals** Action or Ritual	Self	(V) (S) M (R) C	For the duration, you can comprehend and verbally communicate with Beasts, and you can use any of the Influence action's skill options with them. Most Beasts have little to say about topics that don't pertain to survival or companionship, but at minimum, a Beast can give you information about nearby locations and monsters, including whatever it has perceived within the past day.
1	◈	**Healing Word** Bonus Action	60 feet	(V) S M R C	A creature of your choice that you can see within range regains Hit Points equal to 2d4 plus your spellcasting ability modifier.
1	◈	**Cure Wounds** Action	Touch	(V) (S) M R C	A creature you touch regains a number of Hit Points equal to 2d8 plus your spellcasting ability modifier.
1	◈	**Shield** Reaction	Self	(V) (S) M R C	Reaction, which you take when you are hit by an attack roll or targeted by the Magic Missile spell. An imperceptible barrier of magical force protects you. Until the start of your next turn, you have a +5 bonus to AC, including against the triggering attack, and you take no damage from Magic Missile.
1	◈	**Thunderwave** Action	Self	(V) (S) M R C	You unleash a wave of thunderous energy. Each creature in a 15-foot Cube originating from you makes a Constitution saving throw. On a failed save, a creature takes 2d8 Thunder damage and is pushed 10 feet away from you. On a successful save, a creature takes half as much damage only. In addition, unsecured objects that are entirely within the Cube are pushed 10 feet away from you, and a thunderous boom is audible within 300 feet.
1	◈	**Ice Knife** Action	60 feet	V (S) (M) R C	You create a shard of ice and fling it at one creature within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 Piercing damage. Hit or miss, the shard then explodes. The target and each creature within 5 feet of it must succeed on a Dexterity saving throw or take 2d6 Cold damage.

LVL	PR.	NAME	RANGE	V S M R C	NOTES
1	◈	**Faerie Fire** Action	60 feet	(V) S M R (C)	Objects in a 20-foot Cube within range are outlined in blue, green, or violet light (your choice). Each creature in the Cube is also outlined if it fails a Dexterity saving throw. For the duration, objects and affected creatures shed Dim Light in a 10-foot radius and can't benefit from the Invisible condition. Attack rolls against an affected creature or object have Advantage if the attacker can see it.
1	◈	**Find Familiar** 1 hour or Ritual	10 feet	(V) (S) (M) (R) C	You gain the service of a familiar, a spirit that takes an animal form you choose: Bat, Cat, Frog, Hawk, Lizard, Octopus, Owl, Rat, Raven, Spider, Weasel, or another Beast that has a Challenge Rating of 0. Appearing in an unoccupied space within range, the familiar has the statistics of the chosen form (see appendix B), though it is a Fey instead of a Beast. Your familiar acts independently of you, but it obeys your commands. Telepathic Connection. While your familiar is within 100 feet of you, you can communicate with it telepathically. Additionally, as a Bonus Action, you can see through the familiar's eyes and hear what it hears until the start of your next turn, gaining the benefits of any special senses it has. Finally, when you cast a spell with a range of touch, your familiar can deliver the touch. Your familiar must be within 100 feet of you, and it must take a Reaction to deliver the touch when you cast the spell. Combat. The familiar is an ally to you and your allies. It rolls its own Initiative and acts on its own turn. A familiar can't attack, but it can take other actions as normal. Disappearance of the Familiar. When the familiar drops to 0 Hit Points, it disappears. It reappears after you cast this spell again. As a Magic action, you can temporarily dismiss the familiar to a pocket dimension. Alternatively, you can dismiss it forever. As a Magic action while it is temporarily dismissed, you can cause it to reappear in an unoccupied space within 30 feet of you. Whenever the familiar drops to 0 Hit Points or disappears into the pocket dimension, it leaves behind in its space anything it was wearing or carrying. One Familiar Only. You can't have more than one familiar at a time. If you cast this spell while you have a familiar, you instead cause it to adopt a new eligible form.
1	◈	**Guiding Bolt** Action	120 feet	(V) (S) M R C	You hurl a bolt of light toward a creature within range. Make a ranged spell attack against the target. On a hit, it takes 4d6 Radiant damage, and the next attack roll made against it before the end of your next turn has Advantage.
2	◈	**Pass without Trace** Action	Self	(V) (S) (M) R (C)	You radiate a concealing aura in a 30-foot Emanation for the duration. While in the aura, you and each creature you choose have a +10 bonus to Dexterity (Stealth) checks and leave no tracks.
2	◈	**Moonbeam** Action	120 feet	(V) (S) (M) R (C)	A silvery beam of pale light shines down in a 5-foot-radius, 40-foot-high Cylinder centered on a point within range. Until the spell ends, Dim Light fills the Cylinder, and you can take a Magic action on later turns to move the Cylinder up to 60 feet. When the Cylinder appears, each creature in it makes a Constitution saving throw. On a failed save, a creature takes 2d10 Radiant damage, and if the creature is shape-shifted (as a result of the Polymorph spell, for example), it reverts to its true form and can't shape-shift until it leaves the Cylinder. On a successful save, a creature takes half as much damage only. A creature also makes this save when the spell's area moves into its space and when it enters the spell's area or ends its turn there. A creature makes this save only once per turn.

BACKSTORY, PERSONALITY & FEATURES

BACKSTORY & PERSONALITY

BACKSTORY

She grew up in the Underdark. Her mother Nezia is the family head (and heir to the extended family). Her father, Aki, is a wizard. She has two olders sisters and one younger brother, as well.

When Xuna first saw the sky full of stars (emerging from a cave deep in the mountains) she was enamored. They reminded her of bioluminescent fungi from under ground, but even brighter, more mysterious, and unreachable. And they moved! Her family moved closer to the surface when she was 40 and she could go see the night sky more often. When she was 60, she started studying about the stars. She traveled around, gaining knowledge from libraries in manors, castles, and study halls. Along with her star studies, she also studied magic and grew to appreciate the above world more (including above-ground plants, the ocean, etc.)

She's seen the stars from mountain peaks, trees, and towers, but has made her way to the ocean and can't wait to embark on a ship and see an uninterrupted sky.

SAGE

You spent your formative years traveling between manors and monasteries, performing various odd jobs and services in exchange for access to their libraries. You whiled away many a long evening studying books and scrolls, learning the lore of the multiverse - even the rudiments of magic - and your mind yearns for more. You especially focused on learning the secrets of the stars.

APPEARANCE

She wears flowy clothes with several layers, in various shades of blue (like shades of water). Her long white hair is largely loose with small braids throughout. She has small shells braided throughout (these can be alternated with feathers, bones, crystals, or anything else, based on what she likes). She wears her hide armor over her clothing and sturdy boots on her feet. She has a leather belt with a pouch around her waist. Around her neck, she has a simple necklace, from which hangs her star map: an oblong crystal engraved with starry patterns.

BONDS

My mother (Nezia), who is family head. We love eating snacks and playing chess together. She's a warm leader and very supportive.

FLAWS

When the stars are visible, they have my attention, regardless of what I was supposed to be doing (sometimes even trancing).

IDEALS

Wonder: The stars are beautiful and unreachable. I'd rather look up in awe than pretend to be world-wise. Perspective: the stars are evidence that there is good and beauty in the world. Even when it's small, it shines even brighter in the darkness.

PERSONALITY TRAITS

I seek out the best place to view the stars (like the ship's crow nest or rigging).

I collect small, beautiful things that catch my eye. (including shells, sea glass, or glittery things that remind her of the stars)

CLASS FEATURES

Druidic (Druid)

You know Druidic, the secret language of Druids. While learning this ancient tongue, you also unlocked the magic of communicating with animals; you always have the Speak with Animals spell prepared.

You can use Druidic to leave hidden messages. You and others who know Druidic automatically spot such a message. Others spot the message's presence with a successful DC 15 Intelligence (Investigation) check but can't decipher it without magic.

Primal Order - Warden (Druid)

You have dedicated yourself to one of the following sacred roles of your choice.

Magician. You know one extra cantrip from the Druid spell list. In addition, your mystical connection to nature gives you a bonus to your Intelligence (Arcana or Nature) checks. The bonus equals your Wisdom modifier (minimum bonus of +1).

Warden. Trained for battle, you gain proficiency with Martial weapons and training with Medium armor.

Warden. Trained for battle, you gain proficiency with Martial weapons and training with Medium armor.

Wild Shape (Druid)

The power of nature allows you to assume the form of an animal. As a Bonus Action, you shape-shift into a Beast form that you have learned for this feature (see 'Known Forms' below). You stay in that form for a number of hours equal to half your Druid level or until you use Wild Shape again, have the Incapacitated condition, or die. You can also leave the form early as a Bonus Action.
Number of Uses. You can use Wild Shape twice. You regain one expended use when you finish a Short Rest, and you regain all expended uses when you finish a Long Rest.
You gain additional uses when you reach certain Druid levels, as shown in the Wild Shape column of the Druid Features table.
Known Forms. You know four Beast forms for this feature, chosen from among Beast stat blocks that have a maximum Challenge Rating of 1/4 and that lack a Fly Speed (see appendix B for stat block options). The Rat, Riding Horse, Spider, and Wolf are recommended. Whenever you finish a Long Rest, you can replace one of your known forms with another eligible form. When you reach certain Druid levels, your number of known forms and the maximum Challenge Rating for those forms increases, as shown in the Beast Shapes table. In addition, starting at level 8, you can adopt a form that has a Fly Speed.
When choosing known forms, you may look in the Monster Manual or elsewhere for eligible Beasts if the Dungeon Master permits you to do so.
Beast Shapes
Druid Level - Known Forms - Max CR - Fly Speed
2 - 4 - 1/4 - No
4 - 6 - 1/2 - No
8 - 8 - 1 - Yes
Rules While Shape-Shifted. While in a form, you retain your personality, memories, and ability to speak, and the following rules apply:
Temporary Hit Points. When you assume a Wild Shape form, you gain a number of Temporary Hit Points equal to your Druid level.
Game Statistics. Your game statistics are replaced by the Beast's stat block, but you retain your creature type; Hit Points; Hit Point Dice; Intelligence, Wisdom, and Charisma scores; class features; languages; and feats. You also retain your skill and saving throw proficiencies and use your Proficiency Bonus for them, in addition to gaining the proficiencies of the creature. If a skill or saving throw modifier in the Beast's stat block is higher than yours, use the one in the stat block.
No Spellcasting. You can't cast spells, but shape- shifting doesn't break your Concentration or otherwise interfere with a spell you've already cast.
Objects. Your ability to handle objects is determined by the form's limbs rather than your own. In addition, you choose whether your equipment falls in your space, merges into your new form, or is worn by it. Worn equipment functions as normal, but the DM decides whether it's practical for the new form to wear a piece of equipment based on the creature's size and shape. Your equipment doesn't change size or shape to match the new form, and any equipment that the new form can't wear must either fall to the ground or merge with the form. Equipment that merges with the form has no effect while you're in that form.

Spellcasting (Druid)

You have learned to cast spells through studying the mystical forces of nature. The information below details how you use those rules with Druid spells, which appear on the Druid spell list later in the class's description.

Cantrips. You know two cantrips of your choice from the Druid spell list. Druidcraft and Produce Flame are recommended.

Whenever you gain a Druid level, you can replace one of your cantrips with another cantrip of your choice from the Druid spell list.

When you reach Druid levels 4 and 10, you learn another cantrip of your choice from the Druid spell list, as shown in the Cantrips column of the Druid Features table.

Spell Slots. The Druid Features table shows how many spell slots you have to cast your level 1+ spells. You regain all expended slots when you finish a Long Rest.

Prepared Spells of Level 1+. You prepare the list of level 1+ spells that are available for you to cast with this feature. To start, choose four level 1 spells from the Druid spell list. Animal Friendship, Cure Wounds, Faerie Fire, and Thunderwave are recommended.

The number of spells on your list increases as you gain Druid levels, as shown in the Prepared Spells column of the Druid Features table. Whenever that number increases, choose additional spells from the Druid spell list until the number of spells on your list matches the number on the table. The chosen spells must be of a level for which you have spell slots. For example, if you're a level 3 Druid, your list of prepared spells can include six spells of levels 1 and 2 in any combination.

If another Druid feature gives you spells that you always have prepared, those spells don't count against the number of spells you can prepare with this feature, but those spells otherwise count as Druid spells for you.

Changing Your Prepared Spells. Whenever you finish a Long Rest, you can change your list of prepared spells, replacing any of the spells with other Druid spells for which you have spell slots.

Spellcasting Ability. Wisdom is your spellcasting ability for your Druid spells.

Spellcasting Focus. You can use a Druidic Focus as a Spellcasting Focus for your Druid spells.

Wild Companion (Druid)

You can summon a nature spirit that assumes an animal form to aid you. As a Magic action, you can expend a spell slot or a use of Wild Shape to cast the Find Familiar spell without Material components.

When you cast the spell in this way, the familiar is Fey and disappears when you finish a Long Rest.

Star Map (Circle of the Stars)

You've created a star chart as part of your heavenly studies. It is a Tiny object, and you can use it as a Spellcasting Focus for your Druid spells.

While holding the map, you have the Guidance and Guiding Bolt spells prepared, and you can cast Guiding Bolt without expending a spell slot. You can cast it in that way a number of times equal to your Wisdom modifier (minimum of once), and you regain all expended uses when you finish a Long Rest.

If you lose the map, you can perform a 1-hour ceremony to magically create a replacement. This ceremony can be performed during a Short or Long Rest, and it destroys the previous map.

Starry Form (Circle of the Stars)

As a Bonus Action, you can expend a use of your Wild Shape feature to take on a starry form rather than shape-shifting.

While in your starry form, you retain your game statistics, but your body becomes luminous, your joints glimmer like stars, and glowing lines connect them as on a star chart. This form sheds Bright Light in a 10-foot radius and Dim Light for an additional 10 feet. The form lasts for 10 minutes. It ends early if you dismiss it (no action required), have the Incapacitated condition, or use this feature again.

Whenever you assume your starry form, choose which of the following constellations glimmers on your body; your choice gives you certain benefits while in the form.

Archer. A constellation of an archer appears on you. When you activate this form and as a Bonus Action on your subsequent turns while it lasts, you can make a ranged spell attack, hurling a luminous arrow that targets one creature within 60 feet of yourself. On a hit, the attack deals Radiant damage equal to 1d8 plus your Wisdom modifier.

Chalice. A constellation of a life-giving goblet appears on you. Whenever you cast a spell using a spell slot that restores Hit Points to a creature, you or another creature within 30 feet of you can regain Hit Points equal to 1d8 plus your Wisdom modifier.

Dragon. A constellation of a wise dragon appears on you. When you make an Intelligence or a Wisdom check or a Constitution saving throw to maintain Concentration, you can treat a roll of 9 or lower on the d20 as a 10.
